Securing the Future

AMT66, LLC TEAM

## CAPABILITY STATEMENT

### Introduction

AMT66, LLC was established in 2010 and certified in 2016 as an SBA 8(a), an Economically Disadvantaged Woman-Owned Small Business (EDWOSB), Minority Business Enterprise (MBE), and Disadvantaged Business Enterprise (DBE). We align ourselves with government entities and private businesses, working alongside military units to provide products and services critical to protecting and serving our nation.

### Core Capabilities

#### Low Voltage Solutions:

- **Structured Cabling:** Robust and scalable infrastructures designed to meet today's challenges and tomorrow's demands.
- **Fiber Optic Networks:** High-speed connectivity that supports critical applications and data center operations.
- **In-Building Cellular & WiFi:** Comprehensive solutions such as DAS, CBRS, and public safety systems for venues including hospitals, airports, and universities.
- **Security & Video Surveillance:** Enterprise-grade IP video surveillance tailored to your operational needs.
- **Audio-Visual Integration:** Cutting-edge AV products and systems for commercial spaces.

#### Electrical Services:

- **Tenant Improvements & New Construction:** Expertise in commercial, retail, and warehouse projects with advanced lighting and power systems.
- **Service Transformers & Switch Gear Installation:** Comprehensive power distribution equipment solutions.
- **Backup Generators:** Turnkey solutions, including planning, permitting, and construction for seamless power backup.
- **UPS Installation:** Critical IT infrastructure to maintain operational continuity during outages.
- **Sustainable & Resilient Building Systems:** Climate-adaptive and high-performing systems that integrate sustainability with resilience.

#### Construction & Technology Services:

- **Construction Planning & Management:** End-to-end project management with milestone tracking and progress reports.
- **Modular Data Centers (MDCs):** Accelerated deployment solutions ideal for AI and hyperscale applications.
- **SCIF (Sensitive Compartmented Information Facilities):** Secure environments for sensitive data operations.
- **Integrated Building Solutions:** Deployment of surveillance, access control, digital signage, and wireless technologies.

## AMT66, LLC TEAM

### CAPABILITY STATEMENT

#### Highlighted Projects:

Fiber Installation for NIH: Advanced fiber optic networks for healthcare facilities.

Modular Data Center for USDA: Accelerated construction timeline for critical infrastructure.

FAA Multi-State Facility Management: Comprehensive facility management across multiple locations.

#### Commitment to Excellence:

**AMT66, LLC's Team is dedicated to delivering innovative, scalable, and secure solutions that exceed expectations. Whether it's low voltage installations, resilient electrical systems, or modular data centers, we are your trusted partner for success.**

#### Why Choose AMT66, LLC's Team?

Diverse Expertise: Uniting the capabilities of AMT66, Corning, and Accu-Tech for unparalleled solutions.

Proven Track Record: Extensive experience in delivering successful projects across sectors.

Future-Ready Solutions: Innovative approaches to meet dynamic market needs.

Strategic Partnerships: Strong alliances to enhance service delivery.
